1325/RB

Compact professional rescue backpack Antartide

FEATURES

The “Antartide” model differs from the Artide model in the large front pocket with a crystal window used to transport an AED (any defibrillator model) or other medical material. Made of blue or red nylon and double stitching, large high visibility reflective bands, PVC bottom, reinforced and detachable shoulder straps. The large external pocket enable the rescuer giving a clear view of the contents. Internally it is equipped with Velcro® attachments for fixing three supplied professional bags (blue, yellow and green).
