638 Rescue stretcher

Collapsible rescue stretcher with adjustable backrest

FEATURES

Thanks to its particular features this stretcher is suitable for auxiliary uses as secondary stretcher inside the ambulance.

- Safe, adjustable backrest operated by a gas spring and lockable in any position
- Frame in light and sturdy aluminium
- Bag with n. 2 quick unhooking belts for the immobilization of the patient (art. 604/MEB)
- It can be folded for an easy arrangement
- Wheels and feet turned inwards in order to reduce the clearance
- Orange nylon sheet fire proof, water proof, anti-tear and easy to clean
